

Mini-Style Guide:
Transform Your
Favorite Space
with Style
Inspiration

FACETSBYJEM.COM

Elevate your space into a brilliantly sustainable sanctuary with these quick and creative tips. Whether it's a cozy nook or a bustling living room, these ideas will help you infuse personality, purpose, and functionality into your favorite area.

Choose a Vision

03

Start with a theme or mood to guide your design.

A Few Design Style Examples

01

Modern Elegance:

Rich textures, clean lines, and bold accents.

02

Rustic Charm:

Natural wood, soft fabrics, and vintage-inspired pieces.

03

Eclectic Whimsy:

A mix of bold colors, patterns, and unique thrifted finds.

Layer Textures and Materials

04

Create depth and interest with contrasting elements:

01 Pair soft throws with leather or velvet furniture.

02 Add woven baskets or rugs for an earthy touch.

03 Use metallic or glass accents to bring in a hint of glam.

Make It Functional

*Design a space
that works for you.*

01

Add hidden storage like thrifted trunks or ottomans.

02

Use a thrifted bar cart as a rolling workstation or coffee station.

03

Create a reading nook with a comfy chair, good lighting, and a side table.

Play with Color and Light

“Color and light are the facets of brilliance, reflecting emotion and shaping perception. Together, they transform spaces and lives, illuminating purpose and revealing beauty in every angle.”

Brighten the space and set the tone.

01. Use mirrors to reflect light and make the space feel larger.

03. Add warm lighting with thrifted lamps or string lights for ambiance.

02. Choose a neutral palette with bold accent pieces to stay timeless.

Accessorize Thoughtfully

Details make all the difference.

01. Style open shelves with books, thrifted frames, and small plants.

02. Incorporate artwork or DIY projects that tell your story.

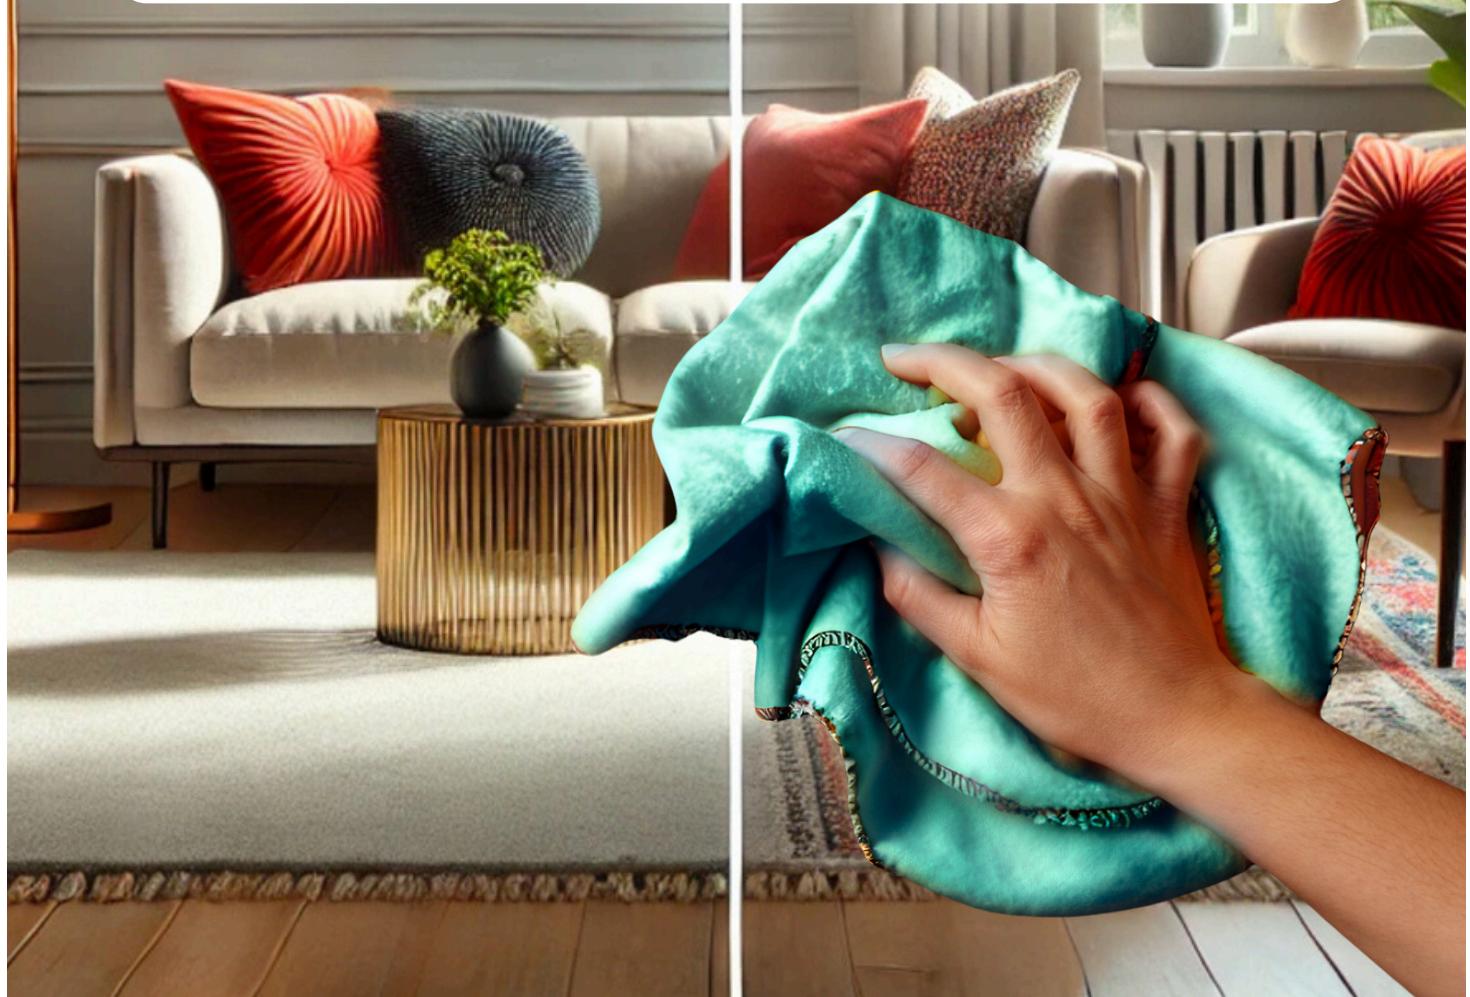

03. Use thrifted vases or jars as unique centerpieces.

Offer something new or improved, whether in terms of features, user experience, or after-sales support. Consider pioneering a solution or introducing a unique model or method.

"Every space can be brilliant with a little bit of polish"
